Policy implications

Corporate Pillar 4. Healthy and Safe Environment

The Town Council will seek to provide and enhance facilities and resources to support and develop safe and well-connected towns

This will include working with other agencies and authorities to ensure changes to infrastructure to encourage and promote a sustainable healthy environment for our residents.

Options/Recommendations

The footfall has not followed the trend of the previous years and has not dropped significantly after the summer holidays, in fact on some days there has been a higher footfall than over the last 2 years.
