

Burnham Community Centre Meeting Notes 15th January 2026 – Cllr Gudka

The committee expresses thanks for the grant for its Christmas meals. The two events were very successful with 80 attendees across the two events. The community meals are now established as a valuable community event and will continue with more events planned in March.

The plans to install a lift to make all floors more accessible and new loos are under review and various options and trade-offs need to be considered. Grant funding has been raised to cover most, but not all of the project. Consultation on detailed plans will commence shortly.

The committee is exploring further options to keep the centre relevant by finding ways to extend the facilities and services available.

The centre is still acquiring new users, and the booking system shows high utilisation. Downstairs rooms are almost continuously full.
